May 27, 2011

Dear Chairman Genachowski:

**I am writing today regarding an issue under review in the FCC's 11-65 docket, AT&T's proposal to merge with T-Mobile USA.** We at the Latino Action Network believe this merger will provide great benefit to the Hispanic business people in our community.

Historically underserved Latino communities need broadband access to fully pursue the business opportunities available to them. By combining, T-Mobile USA and AT&T it will help them to do just that. Expanding its 4G LTE network means AT&T can offer mobile broadband coverage to more Americans. This expansion is good news for Latino and other minority communities.

Equally exciting is AT&T's \$8 billion investment to make coverage of this magnitude possible. Investing that much money will boost businesses across the country, sparking growth and job creation in a variety of sectors which is very important to the Latino community as well as increasing broadband coverage to underserved areas.

I ask that you please weigh the benefits of this transaction for the Latino community in New Jersey and all over the country as you consider this merger application. I appreciate your consideration of the points laid out here.

Sincerely,

Frank Argote-Freyre  
President  
Latino Action Network
